

W.A. DeHart Inc.

1130 Old Route 15

New Columbia, PA 17856

## **Coronavirus (COVID-19) Pandemic**

W.A. DeHart Inc. is classified as an essential business under Governor Wolf's most recent proclamation.

Although many of our accounts include restaurants, schools, colleges, and concession stands that are mandated to close for the near term, a larger percentage of the businesses we serve are permitted to remain operational and are vital components of the food supply chain. The janitorial, paper supplies, beverage, and food products that we distribute are in high demand during these unprecedented times.

Our focus during this period of uncertainty is to ensure the health and safety of our employees, customers, and the population at large. We are disinfecting our warehouse and delivery vehicles with an EMIst electrostatic sprayer using a CDC approved virus fighting agent HDOX.

As we continue to monitor this fluid situation, we are implementing plans to ensure limited business disruptions. Although increased demand for essential products have stressed the supply chain, we continue to work with our vendors to replenish inventory daily.

Thank you for your continued support and if we can serve any additional business needs or concerns, please feel free to contact us.

A handwritten signature in blue ink, appearing to read "Chris Trate", is positioned above the printed name.
